Principal’s Report

Parent Teacher Night
Our Parent/Teacher evening will be held tomorrow night, Tuesday 21st of July, from 4.00pm to 7.00pm in the school hall.

This evening is an excellent opportunity for you to consult with all of your child’s teachers and discuss their progress at school. I encourage all parents to attend.

Year 10 into Year 11 Subject Selection
Parents are reminded that we are holding an Information Evening next Tuesday, 28th of July. We will meet in the Library at 6:30pm to provide information about the HSC, ATAR and a range of other topics. Staff will be on hand to answer specific questions that parents and students may have about the content and demands of particular subjects that Year 10 students are able to choose as they move into the senior school in 2016.

Goulburn Community of Public Schools Concert
As part of our Education Week Activities Crookwell High students will again take part in this annual event to be held at Goulburn Workers Club. Concerts will be held each evening this week showcasing different schools each night. Our students will perform on Thursday night (30th July), commencing at 7.30pm, and our captains, Emma Picker and Steven Cummins, will compere the evening.

Tickets will be available at the door on the evening at a cost of $6 for adults and $3.00 concession. You are also able to pre-purchase tickets at the Office at Crookwell High School.

Thank you to Mrs Woolley and Mr Walker for preparing our students for this concert.

Brian Hudson
Principal

Library News
The school’s Library staff was very busy last term making the necessary changes needed for our new school Library system. It is called ‘Oliver’ and you can find the link to it on your portal page under the google search bar. We are one of the first schools in NSW to move to this new library system which is more modern and accessible for users and our staff.

You can now get on to your library page and customise it if you click on the ‘Orbit’ feature. You can also return, reserve and renew books online and of course search for resources.

The school recently signed up the World Book Online subscription for 12 months. Students can now access this through their Oliver library page. You can do what is called a ‘Federated’ search, which means you can put in a search term and it will search our library, google and world book online for your term.

Recently Mrs McCormack was happy to find a stack of fiction ‘horse’ books in the bookstore in Bowral. She eagerly purchased these knowing we often have girls asking ‘do we have any horse’ books. The answer now is a positive ‘Yes’.

There are a large number of new fiction books coming in to the Library at the moment so make sure you keep coming in and checking out what we have.

Remember, reading is to the mind, what exercise is to the body!

Teacher/Librarian

Maths News
Come along to Maths Help next Monday lunchtime, Room 8 with Mrs Dark.

Term 3 is always a busy term at school and it is certainly no different in the mathematics faculty. We begin the term with a new staff member who has joined the faculty for the term, Ms Belinda Crain. The faculty also has several important events on the calendar for the term. At Tuesday night’s parent and teacher interviews we are hoping to see lots of parents to discuss student’s progress in their classes. The following Tuesday for the Year 10 into 11 subject selection evening we are looking forward to meeting lots of parents to discuss the different maths courses available. Teachers will be available at the end of the evening to discuss individual needs with parents and answer any questions that there may be.

Thursday, July 30th is an exciting day as the Australian Mathematics Competition will be held in the morning. This competition is a fantastic way for students to extend themselves and really test their mathematical ability to solve problems.

The other focus for the maths faculty this term is the introduction of a new program to complement the existing peer tutoring program that operates during RAGE. This new addition aims to assist students in improving their numeracy skills and has been called iSNIP to stand for In-School Numeracy Improvement Program. iSNIP will be held twice a week with a small group of targeted students to assist them to build essential numeracy skills.

Students will work with the same peer tutor that they have been working with on literacy activities in their regular RAGE time.

If there are any questions regarding the iSNIP program, please do not hesitate to contact the school and speak to either Mrs Robinson or Mrs Dark.
